Energy

Our unique approach helps customers to reduce their expenditure, better control consumption and improve their sustainability.

At Reduce My Costs, we believe that you shouldn't have to decide between value and convenience; that's why our dedicated team of industry experts are on hand to find you a competitive deal. We understand the importance of choice, which is why we have built and maintained well-established relationships with all major suppliers in the UK business energy market. We guarantee a comprehensive review no matter the size of your business.

Energy Procurement

Whether your objective is budget certainty or price optimisation, our industry experts have connections with the UK's leading suppliers, helping you find the most suitable deal for your business.

Energy Management

Lowering your organisation's energy usage is a powerful way to cut costs. Our management team offers tailored solutions to help you reduce energy consumption and waste while exploring efficiency projects to generate low-cost electricity. Our smarter energy management service is here to drive your savings.

Energy Strategy

Understanding the role of risk in your organisation is essential. While some businesses opt for higher-risk strategies like flexi-buying or short-term contracts, others prioritise budget stability and certainty. Our team works closely with businesses of all sizes to develop tailored energy strategies that drive future success.

Renewables

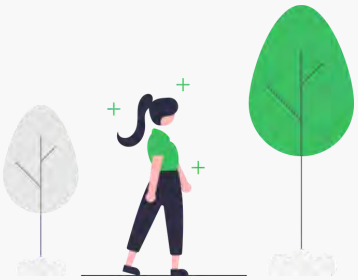

We want to help your business take the right steps to a sustainable future. We can find you the right renewable solutions for your business, big or small.

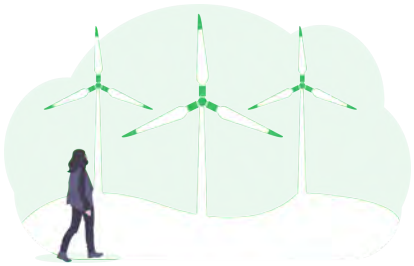

We recognise the necessity and demand for renewable energy projects. Not only do these projects help with reduction in costs of utility supplies for businesses, but they also work in conjunction with carbon reduction and off-setting.

We work closely with leading suppliers and contractors to deliver renewable projects. We're proud to see these projects benefitting our clients long-term ambitions.

Solar PV

Solar PV is a great way to reduce grid usage, costs and help the environment. We design, install and maintain solar panels that are tailored to your specific energy requirements, ensuring that you get the most out of your investment.

Combined Heat and Power (CHP) Units

Our CHP solutions provide combined heat and power, generating electricity and heat from a single source. This highly efficient system can reduce your energy consumption and carbon footprint, making it a popular choice for organisations looking to reduce their environmental impact.

LED Lighting

LED lights are significantly more energy-efficient, boasting a longer lifespan, enhanced environmental performance, and low-voltage operation. These advantages, among others, drastically reduce the energy required to power them.

Water

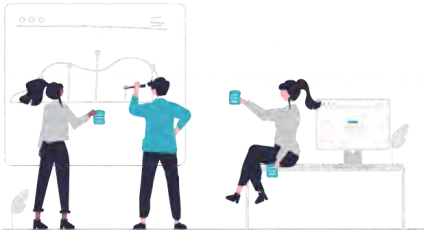

Since the deregulation of the commercial water market in 2017, businesses have been able to choose their water supplier.

Reduce My Costs is partnered with all major water suppliers in the UK, meaning we can find you the most competitive water package. In 2017, the UK government created the largest competitive water market in the world, with over 1.2 million business customers free to choose their water supplier for the first time. However, many businesses are still unaware of this and are simply renewing contracts that they agreed to before the market was deregulated.

Choose a new retailer at a lower price

Reduce My Costs will search the industry for you, taking the hassle out of choosing the best supplier for your business. Once we have identified all possible options for your business, you choose what you think is best.

Renegotiation with existing supplier

If you're hesitant in changing your current supplier, you could still benefit from our service through renegotiation of your current water tariff. We want to ensure that your business is receiving the most suitable package for your needs.

Our business specialists will be able to provide you information on:

- New Contracts
- Bill Validation
- Supply Management
- Water Audits
- Monitoring Services

Web Design

Elevate your brand with our seamless web design, SEO, hosting and support services. From lightning-fast loading times to expert assistance, we've got your digital success covered.

In today's fast-paced business world, a strong online presence is essential. We simplify the process, combining innovation and expertise to guide you seamlessly into the digital space, ensuring your website drives growth and success.

Brochure & Ecommerce Websites

Brochure sites showcase your business and build credibility, while ecommerce sites open online revenue streams and provide a seamless shopping experience. Both boost visibility, engage customers, and drive growth.

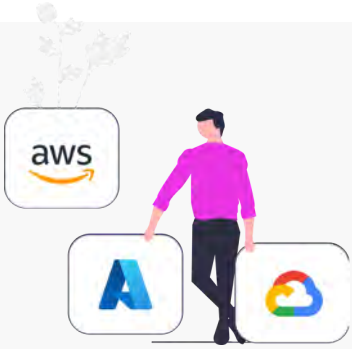

Search Engine Optimisation (SEO)

Search engine optimisation, or SEO, improves your rankings on Google, Bing, and other search engines. We can increase the visibility of your website on search engines and make it appear more frequently, which will increase traffic to it.

Hosting & Support

Our hosting plans ensure your website is secure and accessible to everyone. If anything goes wrong, our support team is ready to restore it quickly and keep you worry-free.

Finance

Financial forecasting and planning are crucial to the success and survival of any business. Our finance experts have the knowledge and resources to support your business.

Reduce My Costs works closely with numerous partners, who all want to help your business grow! Our free, no obligation consultation helps our experts establish your business needs so we can source and secure the funding you want. We provide impartial and professional advice for all your financial queries, with our finance team always going above and beyond to assist your business.

Start Up Loans

A viable business idea but no access to finance? A start-up business loan could work best for you!

Start-up loans are government backed, unsecured personal loans. This means your application does not need the usual support of assets or guarantors.

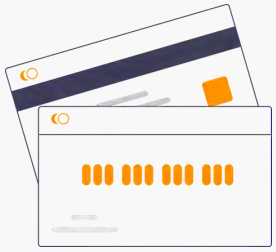

Merchant Cash Advances

Designed to help businesses like you get the cash you need.

A merchant cash advance provides businesses with a sum of money, which they pay back through a percentage of its customers' card payments.

Research & Development Tax Credits Loan

Developing new products, processes or services? Does your business spend money to innovate or conduct research?

If so, you could be eligible for an R&D tax credit loan.

Waste

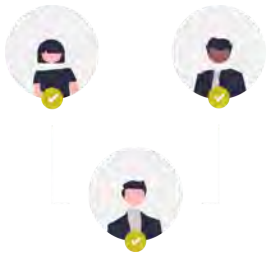

Our tailored waste management solutions cater to the diverse needs of businesses across various industries, addressing the challenges posed by general business waste, recycling, hazardous materials, and more.

Working with a national waste brokerage, we provide waste management solutions across the UK. Our flexible solutions enable businesses to switch their collection provider mid-term, if necessary.

We understand that businesses today are not just seeking disposal services but comprehensive strategies to minimise environmental impact, ensure regulatory compliance, and foster sustainability.

Our Waste Specialists provide businesses with waste management services across the whole of the UK.

On average, we save businesses like yours around 50%.

Our simple pricing structure allows our customers to easily keep track of their monthly spending.
